

Eco Friendly Site Cabins

Strong, durable & built to last

Reducing the impact we make on our planet

by

DANZER

Carbon Footprint reduced by 30%*

After 50 years of manufacturing modular and site accommodation, Danzer has used its experience to develop a new range of high quality Eco-Friendly on-site units. As secure and strong as ever, the Green Shell is suitable for all forms of temporary accommodation from office complexes to stand alone welfare units. Purposefully designed to resist even the most persistent intruders, Danzer delivers green on-site protection for anything of value, right around the clock.
