

On-site accommodation with built in protection from

DANZER

Safety and security that comes as standard

The robust range of cabins from Danzer offers the very latest in on-site security and durability.

Designed to repel the most persistent of intruders and protect all that's valuable, Danzer delivers you peace of mind and minds everything of value.

- Fully welded 1.6mm steel anti-vandal shell
- Unique grinder resistant door design, fabricated from 3mm steel plate, with 5 lever lock and bolt through frame to deter thieves and vandals
- Steel shutters with handshake close to prevent jemmying
- Profiled steel exterior to deliver extra strength and longevity of life
- Cambered roof to prevent water pooling thus protecting against rust
- Fully tested lifting eyes to ensure safe lifting, time after time

The Danzer site survey reviews access for delivery and prepares an installation schedule including mobile crane, trackway, haulage and all service connections if required. All installations come with a full method statement and risk assessment allowing you to feel totally confident in our capability.

Flexible to your on-site accommodation needs

Danzer secure units are flexible to suit any on-site need and any terrain. From offices to toilets or canteen to store, the function may vary but the performance remains the same; safe and secure on-site.

- Painted with your livery or to suit the environment
- Flat sided exterior option for a more attractive appearance
- Up-graded lighting, ITC and power packages provided to give full compliance with the needs of modern working environments
- Double glazed windows option available
- Welfare facility easily accommodated within any unit or as a separate unit (Health & Safety compliant)
- Toilets, showers and disabled facilities in all combinations, can be incorporated in all Danzer units
- Stacked to optimise space. Linked to optimise access

Offices, changing rooms, canteens, drying rooms, meeting rooms, ablution units, stores, decontamination units, no-mains toilets, disabled toilets, site-first welfare units. Whatever your secure on-site accommodation needs, Danzer will fit in perfectly.
